S5/15

The products manufactured by the company mentioned above are spray powders made from starch, which are used in the plastic/film and printing industry in the manufacture of food packaging as spacer.

They were examined by us on basis of the requirements of the

Commission Regulation (EU) No 231/2012 of 9 March 2012 laying down specifications for food additives listed in Annexes II and III to Regulation (EC) No 1333/2008 of the European Parliament and of the Council, Official Journal of the European Union L 83/1 of 22 March 2012, last amended and corrected by Commission Regulation (EU) No 2022/1396 of 11 August 2022, Official Journal of the European Union L 182 of 12 August 2022,

for their purity.

As far as the listed products are concerned, papers, boards and plastic materials manufactured with the spray powders under normal use meet the demands of the

Regulation (EC) No 1935/2004 of the European Parliament and of the Council of 27 October 2004 on materials and articles intended to come into contact with food and repealing Directives 80/590/EEC and 89/109/EEC, Official Journal of the European Union L 338/4 of 13.11.2004, lastly modified by article 5 of the Regulation (EU) 2019/1381 of 20 June 2019, Official Journal of the European Union L 231/1 of 6 September 2019, article 3, 1. (a) and (b),

as well as of the

Lebensmittel-, Bedarfsgegenstände- und Futtermittelgesetzbuch (Lebensmittel- und Futtermittelgesetzbuch - LFGB) in der Fassung der Bekanntmachung vom 15. September 2021 (BGBl. I S. 4253), zuletzt geändert durch Artikel 7 des Gesetzes vom 27. September 2021 (BGBl. I S. 4530), §§ 30 und 31,

(Foodstuffs, Consumer Goods and Animal Feed Code (Foodstuffs and Animal Feed Code - LFGB) in the version of the notification of 15 September 2021 (BGBl. I. p. 4253), last amendment by article 7 of the law of 27 September 2021 (BGBl. I p. 4530), §§ 30 and 31).

Thus the spray powders **S5/15** made from starch according to the sample material submitted may be used safely in the plastic/film and printing industry in the manufacture of food packaging as spacer. The finished products manufactured this way may stand in direct contact with all types of food, as far as the mentioned products are concerned.

This certificate of compliance represents the latest technical standard and is based on the certificate of compliance no. 53194 U 20 of 22 October 2020.

This certificate of compliance has a validity of 2 years and consists of 3 pages.
